The following is an examiner's statement of reasons for allowance:

The references cited do not teach or render obvious in combination of a multi chip module including a plurality of decoupling capacitor assemblies positioned on each integrated circuit die, each decoupling capacitor assembly comprising an aluminum nitride capacitor carrier secured onto the exposed surface of the integrated circuit die, and a decoupling capacitor carried by the capacitor carrier; and at least one wire bond extending from each decoupling capacitor assembly to the logic pin and from the logic pin to the substrate bonding pad (claims 19-21, and 23-27).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
